## Confidea F-Box_BTN

## Description

The Confidea F-Box_BTN is a mechanical push button with LED indication and 1.2 m cable for an easy connection to the Confidea F-Box solution.

## Simply connect the cable to the Confidea

 F-Box for a clean integrated solution.The Confidea F-Box_BTN can be easily connected to the Confidea F-Box for custom panel mount applications. All you need is apply the cable to one of the six button connectors of the F-Box (BTN1, BTN2, BTN3, PRIOR BTN, NEXT BTN, MIC).

As the button comes without screening, you can easily apply your own custom symbol to the surface. The button is anti-vandal and water proof.

The bi-color LED ring (red and green) shows the status of the button.
